

Distance Education Notes

The schools listed in our Distance Education section are not the only schools from which you may take distance education classes. Many of the schools on our pre-approved lists offer classes by distance education.

If you're having trouble finding a particular class to take via distance education, you might want to go to www.cvc.edu. This gives a list of all classes offered online by California community colleges. If you find a G.E. class that you want to take, see if you can match it to one of the pre-approved classes on our list for that school. If not on a pre-approved list, contact the Transfer Evaluator in the Registrar's Office.
